

How to download and save your audioguide:

Please access your log-in area where you can find 2 links:

- one to print out your confirmation voucher.
- the other one to download your English audioguide.

Please click on the link to download the audioguide (see below):

The screenshot shows a ticket confirmation page with the following details:

- Order: 2xxxx9
- Event: Colosseum with downloadable audioguide
- Date: Sunday 5th Oct 2014
- Buttons: Print voucher [ADMIN] and Map
- Text: "Download your tickitaly audioguide and accompanying map: A downloadable audioguide and accompanying map for Colosseum are available with this ticket - please use the links below to download one of the two audio formats and your map in printable pdf format."
- Links: "Colosseum audioguide m4a (13Mb) (recommended) or mp3 (60Mb) (for older players)" and "Colosseum map PDF (675Kb)".

A red arrow points to the word "downloadable" in the text, and a yellow box highlights the "Colosseum audioguide m4a (13Mb)" link.

Then a black page should open where you can listen and see the audioguide playing, if you right-click on the line (see below) you will be able to save it.

Please note that the link can be accessed by any browser, Iphone or tablet. It then depends how they are configured, but you should be asked if you want so save it and where to save it.

The other alternative is to download it to computer and transfer to the iphone using itunes.
